CHRIS EVANS ISSUES A CIRCULAR

In Which He Gives the Report of the

Operators' Committee. AN AGREEMENT WITH THE ENIGHTS

PEPECIAL TELEGRAM TO THE DISPATCH. COLUMBUS, May 28 .- The indications are that there may yet be trouble in the Hocking Valley mines over the failure to agree upon stopping the checking-off system. Soon after the Pittsburg conven-tion the officers of the National Progressive Union claimed that the operators of the Hocking Valley had agreed upon a scale, and made ar-. rangements to proceed under promises from the Knights of Labor. L. D. Doty and E. S. Martin, who represented the operators at the Pittsburg meeting, said they had no ar-

rangements with the Knights of Labor looking to a reduction of prices for day labor or increasing the hours of labor in the valley.

Chris Evans, President of District No. 10, N. P. U., publishes a card to-day in which he embodies the report of Doty and Martin after they returned from the Pittsburg meeting. It is addressed to the other operators of the valley. They say they were appointed a committee to meet the K. of L. officers at Pittsburg, April 16.

ONE STATEMENT. They arranged with them for a scale of prices for the year, commencing May 1, 1889, of 621/2 cents for six months and 671/2 cents for six months in the Hocking Valley, together with the special guarantee from them that they will bring the price of entry, driving, hauling and all-day labor in com-peting districts of Ohio up to the standard the prices we pay for the same labor, and also the number of hours worked as a day's work to be equalized between us and these places, and if this is not done by them by July 15, 1889, they will bring ou prices for this labor and hours considered a day's work down to the level of these competing places, we on our part agreeing to stop the checking off done in our offices of all duties for labor organizations, and check off nothing except the check weighman's

UNFRIENDLY OBGANIZATION. We urge upon you all the faithful carrying out of this agreement on our part, com-mencing promptly May 1. Your committee assumed to act for you in the inter-State convention held in Pittsburg April 16, 1889, after the withdrawal from that con-vention of the committee appointed by the Ohio coal operators, who stated their instructions would not permit them to treat with a convention whose representatives of miners were not progressive union men and in this convention this arrangement would carry out, notwithstanding the united opposition of the Pennsylvania miners, delegates, who are strongly instructed for uniform price of 74 cents for Pennsylvania and 65 cents for the Hocking

Valley for the year.

There may be some trouble over this in Pennsylvanis, but the operators were assured of all necessary and possible action by the delegates to carry out the conclusions reached by the convention.

NOT READY YET.

Campbell Does Not Appoint His Committee Just Yet.

Secretary Ward, of the Central Trades day received a notice from President Campbell, of the Window Glass Workers' Association, stating that he was not prepared to meet the committee from that body. The council has appointed Messra. William J. Smith and Dennis Haves to represent them Smith and Dennis Hayes to represent them in the investigation of the importation of foreign glass workers. President Campbell has the privilege of appointing two and the four men will select the fifth, and this committee will conduct the investigation.

The window glass workers are not ready to appoint their committee. It is believed that President Weihe, of the Amalgamated Association, will be the fifth man on the

The Wages Proposed by Some of the Iron

Manufacturers. The statement that Moorhead, McCleane & Co. have demanded a reduction of 10 per cent in the present scale, is denied by the officials of the Amalgamated Association. Notwithstanding this denial, some of the workers state that the demand has been

It is also stated that the Pittsburg Forge and Iron Company will make a similar demand within a few days, and that other manufacturers will follow suit. This is an indication that the iron manufacturers propose to ignore the Amalgamated Associa-tion in the settlement of the annual wage

NEW IRON RATES.

Pittsburg and Lake Eric Will Make a

Change to Take Effect June 17. The Pittsburg and Lake Erie Railroad yesterday named a number of new iron rates to go into effect June 17. They will apply on stuff from Wampum, Youngstown and other valley stations to the points in the vicinity of Scotdale. The new rates are as follows: On muck, scrap iron, billets, blooms and skelp iron 24,000 pounds minimum car loads, \$1 30 per gross ton; pig iron, \$1 15; cinder and scale, \$1 10.

STEEL SHAFT MANUFACTURERS.

They Will Form an Association for Mutual Protection.

A preliminary meeting of the manufacturers of steel shafts was held at the Hotel Anderson yesterday for the purpose of forming an association for mutual protection to the business.
Only three manufacturers attended the

meeting, but matters pertaining to the trade were discussed. Another meeting will be held, when a larger attendance is expected.

The Situation at Homestead. A non-union man applied for work at the Homestead works yesterday, but the men took charge of him. It is believed that the firm want to have the scale signed by as many men as possible before the time. The scale year does not expire until June 30, and the men say that if any more men apply for work they will close down the mill before the end of the scale year.

Labor Notes. TPE Iron Molders' Union will hold a pienie at Rock Point on Decoration Day. A CONVENTION of coal miners of the Pitte

burg district will be held at K, of L. Hall this morning to consider the price for mining. THE shipments of iron ore from the lake ports this year are heavier than ever before and the prospects for a good trade are exceed-ingly bright.

He is Blaine's Nephew. NEW YORK, May 28 .- Deputy Collector William J. Searing on request to-day handed in his resignation to Collector Erhardt. Secretary Blaine's nephew, Harry Stanwood, who was appointed a deputy yes-terday, will be assigned to Searing's di-vision.

Thompson, of Buffalo, moguls of the National Lead Trust, are to inspect the American Oxide Works with a view to placing it in the trust, if possible. The company was formed a year ago with \$500,000 capital to test a new method of manufacturing oxide of lead, zinc, etc., with the use of natural gas. The tests, it is claimed, were successful, and will revolutionize the methods of manufacturing oxides of lead and zinc.

Patents are held in England, Germany, France and Italy as well as in the United States, and if the deal is completed it will give the trust control of the manufacture of oxides in the world. BALTIMORE, May 28 .- Cardinal Gibbons is an earnest advocate of high license. He I am decidedly opposed to prohibition as a means of preventing intemperance, because it does not prohibit. Experience has shown in those States where prohibition has been tried that it is not an effective means of preventing the vice of drinking. There are many ways of evading the laws, and often the law offi-cers connive at the evasion. Prohibition is to be discouraged also because it confounds the drunkard with those who use liquor in

NOT AN EXPENSIVE CHANGE.

The Proposed Alterations in the Plan of the Monitor Paritan. WASHINGTON, May 28.—The Board of Naval Bureau Chiefs which have been considering the feasibility of changing the plans for the completion of the monitor Puritan held another meeting to-day and decided to recommend the adoption of the plans proposed by the Bureau of Construction.

These look to the substitution of heavier guns in barbettes for the turret guns, and a general addition to the powers of offense and defense of the vessel. It is estimated that the changes in the plans will not cost more to carry out than the original plans.

A Masked Robber Unpleasantly Interrupts

to be discouraged also because it confounds the drunkard with those who use liquor in moderation, making out a sin where there is no sin. The only places where prohibition might be enforced are thickly settled country districts. I am very strongly in favor of high license as a means of checking Intemperance. I regard high license, with moral sanction, as the most efficient way of diminishing the drinking vice. In order to make high licenses should be issued for each ward, and they should be given only to persons of good reputation, men who stand before the community moral and upright, and owners of property. The licenses should be accompanied with strict legislation, and the violation of laws respecting these licenses should be severely punished. Among the punishments should be the withdrawall of licenses, never to be restored to the one who violates the law.

I am in favor of a severe police Sunday-law prohibiting the sale of liquors on Sunday, and would have that law rigidly enforced. The saleon keepers in Baltimore Say that they sell more liquor on Sunday han on any other day. This is a crying shame, and somebody is responsible for this state of things. The keeping of taverns and saleons open on Sundays leads to many bad consequences. The unan who frequents the saleons is not likely to attend church, nor is he in condition to worship. Drunkenness, while always sinful, is an aggravated crime when committed on Sunday. It is scandalous and leads to the violation of other laws. More crime can be traced to intemperance than to any other source. It is useless to make the most stringent laws for the observance of Sunday and the prevention of the sale of liquor on that day unless the police are brought to enforce the laws. The indifference shown the Sunday laws and the needed to enforce them n Midnight Courtship.

Mr. VERNON, O., May 28.—While Henry Parker was visiting Miss Dudgeon, in Harrison township, last night, at midnight, a masked man entered the room, presented a revolver at his head and demanded his money. Parker replied that he had none, but when the robber cocked his revolver the young man handed over \$1, all he had. The robber then went to David Dudgeon's house and stole \$180 from his clothes. He was pursued, but escaped.

Funeral will take place on WEDNESDAY,

May 29, 1889, at 2:30 P. M. Friends of the family are respectfully invited to attend. I contracted a terrible blood-poisoning a year ago. I doctored with two good physicians, neither of whom did me any good. I suffered all a man can suffer and live. Hearing of your CUTICURA REMEDIES I Concluded to try them, knowing if they did me no good they could make me no worse. I have been using them about ten weeks, and am most happy to say that I am almost rid of the awful sores that covered my face and body. My face was as bad, if not worse, than that of Miss Boynton, spoken of in your book, and I would say to anyone in the same condition, to use CUTICURA, and they will surely be cured. You may use this letter in the interests of suffering humanity.
